

Collingham Ski Trip February 2015

For the third year running, Collingham College found itself on the slopes of Verbier, Switzerland for its annual ski trip. Yet again we were lucky having the perfect mix of sun and fresh snow that makes for the best ski trips.

A day trip out across the 4 valleys saw some of the better skiers clock up the ski miles.

Two of the group admiring the view.

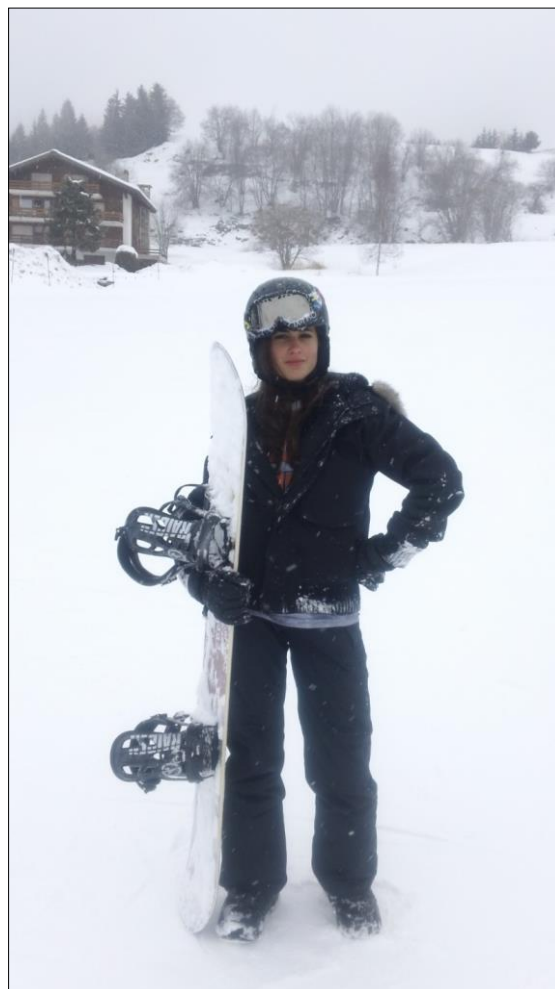

Once up above the clouds the sun came out giving fantastic skiing conditions

Some of the boys right at the top of Mont Fort with Mont Blanc in the background.

Empty slopes

Learning to board.
